

ADVISORY/ Altova to Showcase Industry-Leading XML Development Suite at 2004 JavaOne Conference

BEVERLY, Mass., June 23, 2004 – Altova[®], Inc. (www.altova.com) producers of Altova XMLSPY[®], the world's leading XML development environment, today announced that it will be demonstrating its Version 2004 Release 4 (v2004r4) product line next week at Sun Microsystems' 2004 JavaOne conference at the Moscone Convention Center in San Francisco, Calif. Altova engineers will be on hand at JavaOne to demonstrate the latest enhancements of Altova's industry-leading XML development suite introduced in May, which features XMLSPY 2004, MAPFORCE[™] 2004 and STYLEVISION[®] 2004.

The definitive tool for data integration and information leverage, Altova MAPFORCE 2004 maps data between diverse input sources and output targets using a drag-and-drop interface, and then automatically generates programming code in Java, C++ and C# for royalty-free use. The greatly extended data-mapping functionality in MAPFORCE 2004 provides developers with the ability to map any combination of XML, database and EDI data into XML and/or databases.

Additional enhancements in v2004r4 include a completely redesigned Altova STYLEVISION, focused on stylesheet design and database report generation, and numerous upgrades to XMLSPY, including the brand-new advanced text view. The entire v2004r4 product line is available for download from: <http://www.altova.com/download.html>.

The JavaOne conference is the leading event for Java technology developers. Altova will be located in Booth #1530 from Monday, June 28 through Wednesday, June 30, during exhibition hours of 11:00 a.m. to 7:00 p.m. For conference information and registration, visit java.sun.com/javaone.

About Altova
