Current version: 1.0 beta 2

Downloading and starting the MobileTogether app

1. Download and install the MobileTogether app from the Altova website or Google Play Store.
2. To start MobileTogether, tap the MobileTogether icon on your device's homescreen or in its apps folder.

The MobileTogether app starts and displays the [Solutions page](#).

[Table of Contents](#)

Setting up and connecting to a MobileTogether Server

1. Tap the **Menu** (or **Options**) key on your device and select **Settings**.
2. In the toolbar (at the top of the Settings page), tap **Add Server** (the plus-symbol icon). This displays the [Server Settings page](#).
3. Complete the fields of the [Server Settings page](#). When inside a field, tap **Next** to go to the next field. Tap **Done** when you finish. The fields are, in display order:
 - *Name*: The name by which the server will be known on your device
 - *Server Address*: The fully qualified domain name (FQDN) or IP address of the MobileTogether Server
 - *Port*: The server port on which MobileTogether Server is available. MobileTogether Server defaults are 8083 for HTTP, and 8084 for HTTPS
 - *Use SSL*: SSL can be used if this has been set up on the MobileTogether Server. The setting up of SSL is described in the MobileTogether Server documentation.
 - *User name*: The MobileTogether Server user account to use when the client connects to the server. If none has been assigned to you by your MobileTogether Server administrator, use `anonymous`
 - *Save Password*: The password you enter in the next field can be saved by switching this option to **On**.
 - *Password*: The password of the MobileTogether Server user account. If `anonymous` is the

user name, no password is required. The *Show Password* option allows you to see the password characters

4. To save the server settings, tap **Done** after finishing with the *Password* field.
5. Tap the **Back** key to return to the [Settings page](#). The added server will be listed there.

[Table of Contents](#)

The Solutions and Favorites pages

It is the **Solutions page** that is displayed when you start the MobileTogether app. The Solutions page shows all the solutions that have been transferred from the currently selected MobileTogether Server to the mobile device. To change the currently selected MobileTogether Server, select another MobileTogether Server from the spinner in the toolbar.

The **Favorites page** contains solutions of the currently selected MobileTogether Server that have been defined as favorites. To define a solution as a favorite, go to the Solutions page, press the solution, and, in the menu that is displayed, tap the **Add to favorites** option.

Toolbar icons

Both pages (Solutions and Favorites) have two toolbar icons (at the top right of the page):

- *Select Server*: This is a spinner that allows you to select a server from the [added servers list](#). Solutions from the server selected here are displayed in the Solutions/Favorites page.
- *Reload Solutions*: Tapping this icon causes the solutions of the currently selected server to be reloaded.

Go to the Settings page

To go to the Settings page from the Solutions/Favorites page, tap the **Menu** (or **Options**) key on your device and select **Settings**.

Exit the MobileTogether app

To exit the MobileTogether app, tap the **Back** key.

[Table of Contents](#)

Running a solution

On the Solutions or Favorites page, tap a solution to run it on your device.

[Table of Contents](#)

The Settings page

To access the Settings page, tap the **Menu** (or **Options**) key on your device and select **Settings**. The Settings page has two sections: *General Settings* and *Added Servers*.

General Settings

- *List solutions with details*: Displays a descriptive text below the solution name on the solutions page.
- *Reload solutions on app start*: Reloads all the solutions from the connected server whenever the app is started.

Servers

This section contains a list of MobileTogether Servers that have been set up on the mobile device. Tapping a MobileTogether Server name opens the [Server Settings](#) form of that MobileTogether Server.

Toolbar icons

The Settings page has two toolbar icons (at the top right of the page):

- *Add Server*: Indicated by a plus-symbol icon. Tapping it takes you to the Server Settings page, in which you can define the settings of a new MobileTogether Server to connect to. The procedure is described in the section, [Setting up and connecting to a MobileTogether Server](#).
- *Delete Server*: Indicated by a dustbin icon. Tapping it displays the Select Server to Delete dialog, which lists all the added MobileTogether Servers. Tap the MobileTogether Server you want to delete.

Go back to Solutions/Favorites page

To go back to the Solutions/Favorites page from the Settings page, tap the **Back** key.

[Table of Contents](#)

The Server Settings page

The Server Settings page contains the settings to connect to a MobileTogether Server. It is accessed from the [Settings page](#) in two ways:

- *To add a new server*: Tap the **Add Server** (plus-symbol icon) in the [Settings page toolbar](#).
- *To edit an added server's settings*: In the list of servers under Added Servers, tap a server name.

The fields of the Server Settings page are listed below. When inside a field, tap **Next** to go to the next field. Tap **Done** when you finish with the last field. The server will be added to the list of servers on the [Settings page](#), the mobile device will connect to the MobileTogether Server, and solutions for the user specified in the server settings will be downloaded to the mobile client.

- *Name*: The name by which the server will be known on your device
- *Server Address*: The fully qualified domain name (FQDN) or IP address of the MobileTogether Server
- *Port*: The server port on which MobileTogether Server is available. MobileTogether Server defaults are 8083 for HTTP, and 8084 for HTTPS
- *Use SSL*: SSL can be used if this has been set up on the MobileTogether Server. The setting up of SSL is described in the MobileTogether Server documentation.
- *User name*: The MobileTogether Server user account to use when the client connects to the server. If none has been assigned to you by your MobileTogether Server administrator, use `anonymous`
- *Save Password*: The password you enter in the next field can be saved by switching this option to **On**.
- *Password*: The password of the MobileTogether Server user account. If `anonymous` is the user name, no password is required. The *Show Password* option allows you to see the password characters

Toolbar icons

The Server Settings page has two toolbar icons (at the top right of the page):

- *Go to Settings*: Indicated by a list-symbol icon. Tapping it takes you to the [Settings page](#).
- *Delete Server*: Indicated by a dustbin icon. Tapping it displays a dialog asking whether you want to delete the server. Tap **Yes** to delete, **No** to cancel.
