

FOR IMMEDIATE RELEASE

## Updated JSON Schema Support Headlines Altova's v2019r3 Release

Beverly, Mass., April 2, 2019 – Altova® (<http://www.altova.com>) announced the release of Version 2019 Release 3 of Altova MissionKit desktop developer tools, server software products, and Excel add-ins. This release adds support for the latest JSON Schema drafts across the product line, new Split Text View options in XMLSpy, support for high-res monitors and new Web services mapping options in MapForce, and so much more.

A highlight of some of the new features in this release:

- Support for JSON Schema draft-06 and draft-07 across the product line
- Split Text View in XMLSpy to split the editing window into two parts horizontally or vertically to view and edit different parts of your document at once
- New data mapping tools added to MapForce:
  - Full support for high resolution monitors
  - Database output logging
  - Transaction roll-back for database error handling
  - Error handling options for REST Web services
  - Dynamic username and password option for Web services
  - Support for un-structured request/response bodies in REST Web services
- DiffDog Server now supports automated, high-performance comparisons of database structure and content
- Updated Open JDK support across the product line
- Support for Office 2019 (OOXML) across the product line
- Support for additional database versions across the product line
- And many more.

These and many additional features are available in Version 2019r3. To view new features in each product and access trial downloads please visit: (<https://www.altova.com/whatsnew>)

### About Altova

Altova® is a software company specializing in tools that assist developers with data management, software and application development, mobile development, and data integration. The creator of XMLSpy® and other award-winning products, Altova is a key player in the software tools industry and the leader in XML solution development tools. The company offers a complete line of desktop developer software for XML, SQL, and UML; high-performance workflow automation server products; and a cross-platform mobile development platform. Altova focuses on its customers' needs by offering a product line that fulfills a broad spectrum of requirements for software development teams. With over 5.2 million users

worldwide, including 91% of Fortune 500 organizations, Altova is honored to serve clients from one-person shops to the world's largest organizations. Altova is committed to delivering standards-based, platform-independent solutions that are powerful, affordable and easy-to-use. Founded in 1992, Altova is headquartered in Beverly, Massachusetts and Vienna, Austria.
